WORK EXPERIENCE

Front-end-developer (UI Developer)
Nextolive Technology

08/2024 - Present   *Lucknow Uttar Pradesh, India*

Achievements/Tasks

- I build responsive web applications using HTML, CSS, JavaScript, React, and Angular, ensuring cross-browser compatibility and smooth performance.
- With React's component-based approach, I create clean, scalable, and reusable code that improves maintainability and efficiency.
- I work closely with UI/UX teams to turn wireframes into pixel-perfect, user-friendly interfaces that align with design goals.
- My focus on mobile-first design, performance, and accessibility (WCAG) ensures fast, inclusive experiences across all devices.
